

Cours de Thermique du bâtiment

Vidéo n°2

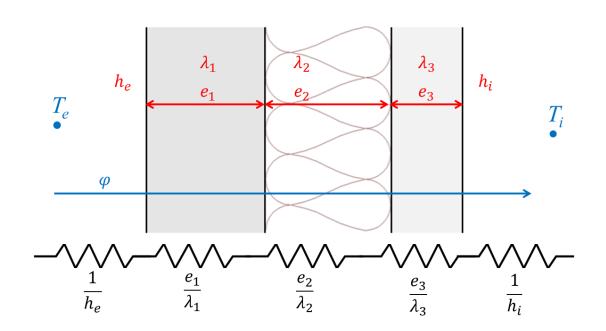

Analogie électrique : échelle du bâtiment

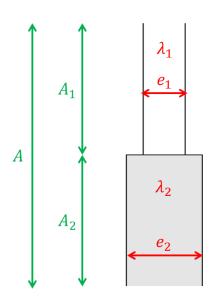

Simon Rouchier Maître de Conférences Polytech Annecy-Chambéry Université de Savoie

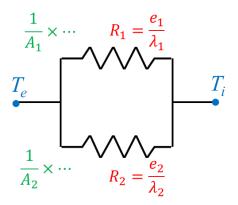

vidéo réalisée le 12/10/2015

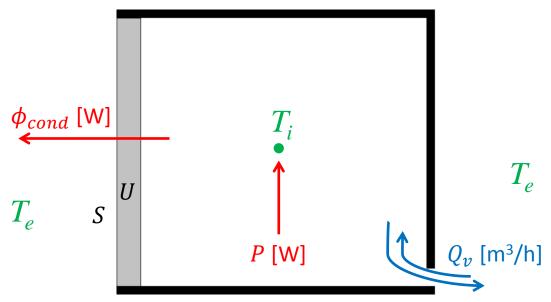

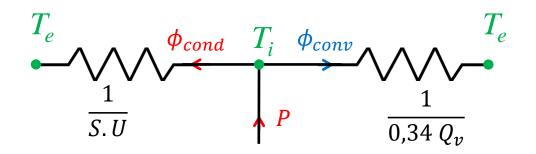

$$\phi_{cond} = S.U(T_i - T_e)$$
 [W]

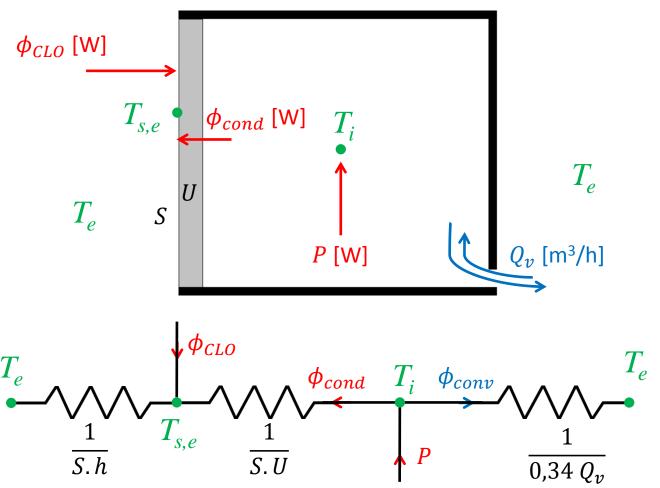

$$\phi_{conv} = 0.34 Q_v (T_i - T_e) \text{ [W]}$$

$$P = S. U(T_i - T_e) + 0.34 Q_v(T_i - T_e) = D (T_i - T_e)$$

avec $D = S. U + 0.34 Q_v$ [W/K]

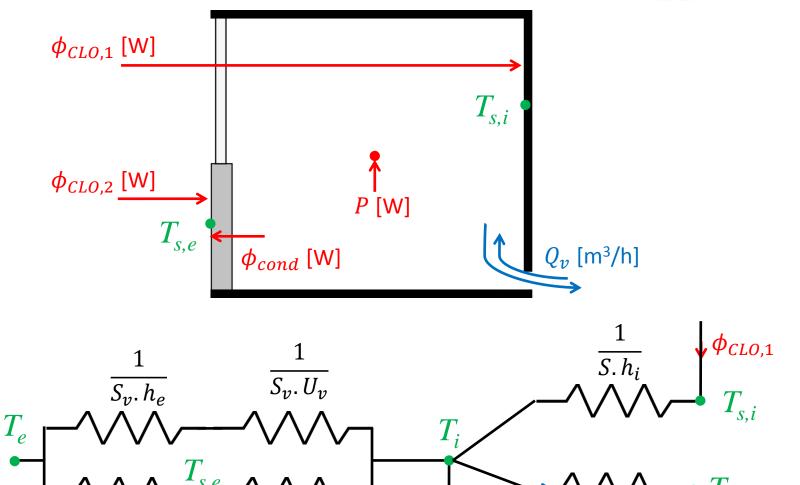

$$P = S.U(T_i - T_{s,e}) + 0.34 Q_v(T_i - T_e)$$

$$\phi_{CLO} = S.h(T_{s,e} - T_e) + S.U(T_{s,e} - T_i)$$

 ϕ_{conv}

 $\overline{0,34 \ Q_v}$

P
